PROFESSIONAL SUMMARY

Analytical Computer Science graduate with 3+ years of progressive experience in retail sales operations, inventory management, and data-driven problem solving. Proven track record using Microsoft Dynamics 365 to analyze sales data, forecast demand, and identify growth opportunities in high-volume retail environments. Combines technical proficiency in software, databases, and reporting with strong communication, negotiation, and cross-functional collaboration skills. Seeking to leverage operational expertise, business acumen, and process improvement mindset in a Supply Chain Graduate Trainee role to optimize procurement, logistics, and inventory systems.

CORE SKILLS

- **Supply Chain Operations:** Inventory Management, Demand Forecasting, Sales Analysis, Procurement Support, Logistics Coordination.
- **Systems & ERP:** Microsoft Dynamics 365, Retail ICG Systems, Microsoft Excel, Microsoft Office Suite.
- **Data & Analytics:** Sales Data Analysis, Trend Identification, KPI Reporting, Problem Solving, Root Cause Analysis.
- **Operations:** Process Improvement, Time Management, Task Prioritization, Policy Implementation
- **Stakeholder Management:** Negotiation, Persuasion, Customer Relations, Conflict Resolution, Cross-functional Collaboration.
- **Technical:** SQL Fundamentals, RESTful APIs, Node.js, Cloud Computing Concepts, Database Management

TECHNICAL SKILLS

- **ERP & Business Systems:** Microsoft Dynamics 365, Retail ICG
- **Data Tools:** Microsoft Excel, Microsoft Word, PowerPoint
- **Programming:** Node.js, Express.js, SQL Basics, HTML, CSS, React
- **Other:** Cloud Computing Concepts, API Integration, Troubleshooting, Software Development Lifecycle

PROJECTS

Fintech Banking Application

Personal Project | 2026

- Built a fintech banking web application integrated with a simulated banking API developed by instructors and peers at TS Academy, modelled after real-world payment systems like NIBSS.
- Developed a robust RESTful backend using Node.js and Express.js to handle account operations and API communication.
- Implemented secure API request handling and structured project architecture following industry best practices.
- Demonstrates practical understanding of financial systems, third-party API integration, and backend development.

GitHub: github.com/Olakiitan20/fintechAssignment

Planet Showcase Website

Group Project | 2026

- Collaborated with a team to design and develop an interactive planet showcase website using HTML, CSS, and React.
- Contributed to header component and the responsive layout.
- Applied component-based architecture and responsive design principles to create an engaging user experience
- Strengthened frontend skills and deepened understanding of the React ecosystem.

EDUCATION

B.Sc. Computer Science

Ekiti State University, Ado-Ekiti, Nigeria

2019

WORK EXPERIENCE

Senior Sales Executive

Justrite Superstore | Lagos, Nigeria | 2022 – Present

- Leveraged Microsoft Dynamics 365 and ICG retail systems to track daily sales, monitor stock levels, and analyze product performance across 500+ SKUs, supporting inventory replenishment decisions.
- Analyzed sales data and consumer trends to identify fast-moving products and seasonal demand patterns, contributing to improved stock availability and reduced overstock.
- Demonstrated full product knowledge to customers and internal teams, improving sales conversion rates through targeted product recommendations and promotions.
- Resolved customer and operational conflicts using data-backed negotiation, maintaining 95%+ customer satisfaction while protecting margins.
- Prioritized tasks and managed time across sales floor operations, reporting, and restocking to meet daily KPIs in a high-traffic retail environment.
- Identified opportunities for sales growth by assessing slow-moving inventory and proposing bundling strategies to management.

Software Developer

Tech Sphere Academy | Lagos, Nigeria | 2025 – Present

- Collaborated in an agile team to design and develop a fintech banking web application integrated with simulated NIBSS-style payment APIs, mirroring real-world transaction and reconciliation workflows.
- Built robust RESTful backend using Node.js and Express.js to handle account operations, emphasizing data accuracy, system reliability, and API communication transferable to supply chain ERP/WMS integrations.
- Applied problem-solving and analytical thinking to debug system issues, optimize data flow, and ensure seamless end-to-end process execution.
- Co-developed interactive web application using HTML, CSS, and React, demonstrating ability to learn new systems quickly and translate requirements into functional solutions.

Information and Communication Technology Officer – NYSC

Holy Trinity Grammar School | Ondo, Nigeria | 2019 – 2021

- Managed ICT resources and scheduling for 200+ students, ensuring efficient allocation and maintenance of equipment analogous to asset/inventory control.
- Developed and implemented operational policies for computer lab usage, improving resource utilization and compliance.
- Organized and prioritized tasks to deliver lesson plans, manage classroom logistics, and mentor students, demonstrating planning and coordination skills critical to supply chain operations.

Industrial Training Student

Emmanuel Ventures | Oyo State, Nigeria | 2016

- Supported daily operations using Microsoft Office Suite for reporting, data entry, and documentation.
- Provided customer service and troubleshooting support, resolving technical and process issues through active listening and root cause analysis.
- Collaborated with team members to meet service deadlines, strengthening teamwork and communication in a business environment.

CERTIFICATIONS & TRAINING

Human Resources Management | International Institute of Project and Safety Management (IIPSM)

Software Development | Tech Sphere Academy

Graphics Design | Classic Systems Infotech

ADDITIONAL INFORMATION

- Strong foundation in Computer Science fundamentals including data structures, algorithms, and software engineering principles.
- Self-motivated learner actively expanding skills in React and full stack development.
- Comfortable working with Git version control and collaborative development workflows.
- Open to junior/graduate full stack developer roles and internship opportunities.
