PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science graduate transitioning into full stack development. Equipped with hands-on experience building web applications using Node.js, Express, React, and modern frontend technologies. Completed structured software development training at TS Academy, where I developed multiple real-world projects including a fintech banking application, an inventory management system, and a country search application. Passionate about writing clean, efficient code and eager to contribute to dynamic development teams.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, React Vite, Next.js

Backend: Node.js, Express.js

Database: MongoDB

Auth & Security: JWT Authentication, Role-Based Authorization

APIs: RESTful APIs, API Proxy, Simulated Banking APIs

Version Control: Git, GitHub

Deployment: Netlify, Vercel

PROJECTS

Inventory & Sales Management System

Personal Project | 2026

- Built a responsive inventory and sales management system for managing products, customers, stock movements, invoices, payments, and dashboard reporting.
- Developed the backend with Node.js, Express.js, and MongoDB, including JWT authentication and role-based admin/staff authorization.
- Implemented stock-in/stock-out workflows, customer management, invoice and payment tracking, and protected API routes.
- Built the frontend with React and Vite with responsive navigation and role-aware functionality.

[Live Demo: inventory-manager-snowy-delta.vercel.app](https://inventory-manager-snowy-delta.vercel.app)

Planet Showcase Website

Personal Project | 2026

- Designed and developed an interactive planet showcase website using HTML, CSS, and React.
- Applied component-based architecture and responsive design principles to create an engaging user experience.
- Deployed the project live on Netlify.

[Live Demo: capstone-project-14.netlify.app](https://capstone-project-14.netlify.app) | [GitHub: github.com/Olakiitan20/CAPSTONE-PROJECT-14](https://github.com/Olakiitan20/CAPSTONE-PROJECT-14)

Country Typeahead Search Application

Frontend Screening Project | 2026

- Built a responsive country typeahead/autocomplete application for a frontend engineering screening task using React and Next.js.
- Implemented debounced search, loading/empty/error states, keyboard and mouse selection, Escape-to-close, and stale-request protection.
- Used a server-side API proxy and asynchronous API integration, then deployed to Vercel.

Fintech Banking Application

Personal Project | 2026

- Built a fintech banking web application integrated with a simulated banking API developed by instructors and peers at TS Academy, modelled after real-world payment systems.
- Developed a robust RESTful backend using Node.js and Express.js to handle account operations and API communication.
- Implemented secure API request handling and structured project architecture following industry best practices.

WORK EXPERIENCE

Cashier | Justrite Superstore, Lagos

Nov 2022 – Present

- Processed customer transactions accurately using point-of-sale (POS) systems, handling cash, card, and digital payments.
- Maintained accurate cash reconciliation and end-of-day reporting.
- Provided excellent customer service, resolving inquiries and complaints promptly.
- Collaborated with team members to ensure smooth store operations and inventory accuracy.

EDUCATION

B.Sc. Computer Science

2019

Ekiti State University, Ado-Ekiti, Nigeria

CERTIFICATIONS & TRAINING

Software Developer Certification

TS Academy | 2026

Completed structured training in software development covering core programming concepts, web technologies, and real-world project execution.

ADDITIONAL INFORMATION

- Strong foundation in Computer Science fundamentals including data structures, algorithms, and software engineering principles.
- Delivered multiple full stack projects from development to live deployment on Netlify and Vercel.
- Comfortable working with Git version control and collaborative development workflows.
- Open to junior/graduate full stack developer roles and internship opportunities.
